

Bulgarian inquiry terminal box 24-core

Article Overview

A 24-core fiber optic terminal box is designed for FTTX/FTTH networks, supporting up to 24 fibers with IP65 waterproof protection and options for SC or LC adapters.

Key Features

- Capacity: Supports up to 24 fibers, compatible with SC simplex or LC duplex adapters, and can accommodate 1:8 or 1:16 mini splitters for network distribution .
- Protection: Outdoor models offer IP65 waterproofing, UV protection, dustproofing, and flame-retardant materials, ensuring durability in harsh environments .
- Material & Design: Typically made from ABS or SMC materials, providing a lightweight yet strong enclosure. Many models feature a double-layer design for easier installation and maintenance .
- Cable Management: Integrated splice cassettes, cable management rods, and fiber bend radius control ($\geq 40\text{mm}$) allow organized splicing, splitting, and storage of fibers .
- Installation: Can be wall-mounted or pole-mounted, suitable for both indoor and outdoor deployments. Lockable designs enhance security .
- Environmental Range: Operates in temperatures from -40°C to $+80^{\circ}\text{C}$, with lateral pressure and shock resistance for outdoor use .

Applications

- FTTH/FTTX deployments for residential or commercial networks.
- Optical LAN, WAN, and CATV networks.
