

Chile Export of 400G of Hybrid Optical and Electrical Cables

Article Overview

Hybrid optical and electrical cables from Chile fall under HS code 854470, with a default export duty of 6% and are primarily exported to countries like Peru, the United States, and Argentina.

HS Code Classification and Tariffs

Hybrid optical and electrical cables, including those made up of individually sheathed fibers and optionally containing electric conductors, are classified under HS code 854470 in Chile . This code covers insulated wires, cables, and optical fiber cables, whether or not fitted with connectors. The default export duty for this HS code in Chile is 6%, which applies to shipments including small quantities such as 400 grams .

Export Volumes and Market Trends

Chile's exports of optical fibers and hybrid cables have shown resilient growth in recent years, with shipments increasing after a period of decline . While exact figures for 400 grams are minimal, the market data indicates that Chile exports optical fiber and hybrid cables in bulk to Peru, the United States, and Argentina, with Peru being the largest recipient . The average export price varies by destination, with the United States typically commanding higher prices compared to Peru .
