

Estonian Fiber Optic Cable Binding Machine Manufacturer

Article Overview

Hexatronic Tallinn and Rosendahl Nextrom are key providers of fiber optic cable production and binding solutions in Estonia.

Hexatronic Tallinn

Hexatronic operates a large fiber optic termination and assembly facility in Tallinn, Estonia, which is the largest in the Baltic and Scandinavian region . While Hexatronic primarily focuses on fiber optic cable assembly, termination, and high-quality cable products, their facility is equipped with advanced machinery for fiber binding, termination, and testing, supporting high-capacity production for telecom operators, military, and power sectors . They also provide tools and accessories for field installations, which may include binding and assembly equipment for fiber optic cables.

Rosendahl Nextrom

Although not an Estonian company, Rosendahl Nextrom supplies global fiber optic cable production machinery, including equipment for fiber drawing, coating, ribbon making, and cable assembly . Their solutions cover individual process steps as well as complete fiber optic cable production lines, which include binding and loose tube assembly systems. Estonian manufacturers or facilities like Hexatronic can integrate Rosendahl Nextrom machinery into their production lines to enhance efficiency and precision .
