

Factory Price of Ground Cable Trays

Article Overview

Factory prices for grounding cable trays typically range from \$0.80 to \$76 per unit, depending on material, type, and bulk order volume.

Price Overview

Grounding cable trays are available in various materials and designs, including powder-coated steel, FRP (fiber-reinforced plastic), and stainless steel, each affecting the cost. According to B2B platforms, bulk factory prices for cable trays can start as low as \$0.80 per unit for standard metal trays, while specialized or high-capacity trays may reach \$76 per unit. On India-based platforms, prices for metal cable trays start around ₹90-100 per meter for wholesale orders.

Factors Affecting Price

- **Material:** FRP trays are corrosion-resistant and non-conductive, often slightly more expensive than standard steel trays, but reduce long-term maintenance costs. Powder-coated steel offers moderate protection and aesthetic appeal for indoor use.
- **Design and Type:** Ladder-type, perforated, or fully enclosed trays vary in price. Enclosed or U-shaped trays designed for underground or harsh environments are more costly due to higher material and manufacturing requirements.
- **Volume and Supplier:** Factory-direct purchases and bulk orders significantly reduce per-unit costs. OEM or customized trays may have higher prices but allow specification-based optimization.
- **Environmental Suitability:** Trays intended for outdoor, chemical, or high-moisture environments may include additional coatings or materials, increasing the price.
