

Fiber Array Assembly Base Accessories

Overview

This page contains our selection of accessories for multi-axis flexure fiber stages. These include fiber clamps, fiber holders, and axial force sensors. With customizable V-groove chips and covers, and Corning's capability of developing and making specialty fibers, our FAU products can meet a wide variety of customer requirements on the inter-fiber core pitch and its precision, channel number, fiber type, and. CommScope features a family of tools and components for the installation, repair and maintenance of fiber cables, including prep and termination kits. PHIX Photonics Assembly offers a broad range of high quality v - g roove optical fiber arrays for photonic integrated circuit (PIC) connections. Our offering covers the wavelength range from ultraviolet to infrared, channel counts up to 64, and various pitches and polishing angles. Or, through high. FAU (Fiber Array Unit) multifiber assemblies offer high-density, high bandwidth solutions for the new era of fiber optic applications, including telecommunications, data centers, silicon photonics, defense and medical applications. OpTek System's proprietary laser technology offers end-to-end.
