

Hj optical module

Overview

The OEM-I laser module from HJ Optronics (San Jose, CA) features high power and small form factor, and is available in various wavelengths from 405 to 1319 nm. (1+1) x 1 Multimode High Power Pump & Signal Combiner (MMPC) is a compact high performance lightwave component that combines signal and pump p. Right column: Alternative suppliers are suppliers also offering such products while having our advertising package.
