

How much does a Czech-made cable tray cost

Article Overview

Cable tray prices in the Czech Republic vary widely, typically ranging from around \$1 per kilogram for standard steel trays to significantly higher prices for stainless steel, aluminum, or specialized trays with coatings or certifications.

Typical Price Ranges

- **Standard galvanized steel trays:** These are the most common and cost-effective option, with prices largely driven by raw material costs such as hot-rolled steel. Prices generally start at approximately \$1 per kilogram for bulk purchases, though fluctuations in steel prices can affect this rate .
- **Stainless steel or aluminum trays:** These materials command a premium due to higher raw material costs and enhanced performance properties, including corrosion resistance and lighter weight. Prices can be 2–3 times higher than standard steel trays, depending on thickness and finish .
- **Wire mesh or grid trays:** Popular in industrial and commercial installations, these trays are offered by suppliers like ARKYS and GroupSumi, with pricing influenced by mesh size, load capacity, and included accessories .
- **Specialized trays:** Trays with fire resistance ratings (EI 30, EI 60), electromagnetic shielding, or quick-installation features are priced based on the value they provide in safety and installation efficiency, often exceeding standard tray costs by a significant margin .
