

How much does a trapezoidal cable tray cost in China

Article Overview

Trapezoidal cable trays in China typically range from around \$10 to \$50 per meter, depending on material, size, and customization.

Price Range and Factors

The cost of trapezoidal cable trays in China varies widely based on several factors:

- **Material:** Stainless steel, galvanized steel, and aluminum are common. Stainless steel tends to be more expensive, while galvanized steel is more cost-effective .
- **Size and Load Capacity:** Side rail height, width, and maximum load capacity influence the price. For example, trays with a 200 kg load capacity are priced higher than lighter-duty trays .
- **Customization:** Custom lengths, perforations, coatings, or special finishes can increase costs. Many manufacturers offer OEM/ODM services for tailored projects .
- **Order Quantity:** Bulk orders (e.g., 1,000 meters or more) often receive significant discounts, while small prototype orders may cost more per meter .
- **Environmental Adaptation:** Trays designed for corrosive, high-humidity, or outdoor environments may be priced higher due to additional protective coatings or materials .

Supplier Options

China has numerous suppliers and manufacturers of trapezoidal cable trays, including:
