

How much fiber optic cable does Qatar use

Overview

Qatar's fiber optic coverage has reached 98%, ensuring high-speed, reliable internet across nearly all households. How has internet usage evolved in Qatar by 2026?

Internet penetration is at 97%, with average speeds of 1.2 Gbps and monthly data usage of 600 GB per user. These projections for Qatar. The Fibre in Gulf (FIG) is a submarine cable connecting seven GCC countries in the region – Qatar, Oman, the UAE, Bahrain, Saudi Arabia, Kuwait and Iraq. This figure reflects the total revenues of producers and importers (excluding logistics costs, retail marketing costs, and retailers' margins, which will be included in the final consumer).
