

Installation price of electrical distribution boxes within the building

Article Overview

Installing an electrical distribution box typically costs between \$450 and \$1,600 for residential projects, with larger or industrial installations reaching \$2,000 to \$6,000 or more depending on specifications and labor.

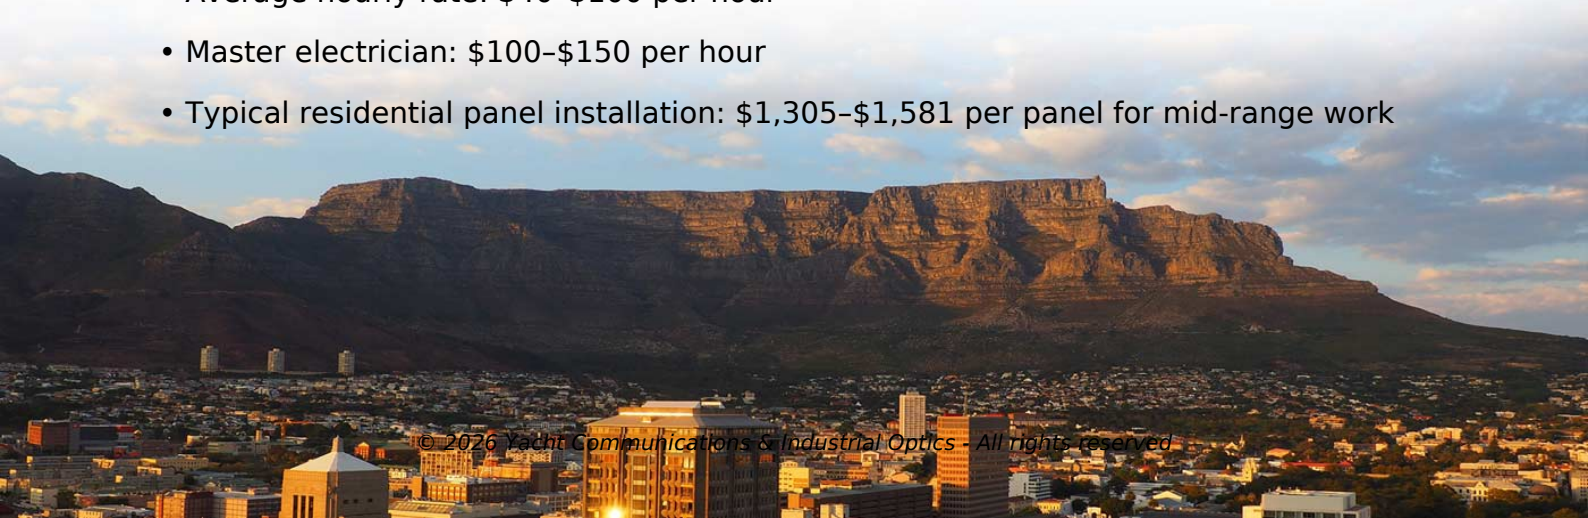

Distribution Box Costs

The price of a distribution box depends on voltage rating, amperage capacity, number of circuits, material, and safety features. Standard residential units usually range from \$150 to \$1,900, including parts and labor, with most projects falling between \$450 and \$1,500 for typical indoor installations. Commercial or industrial boxes are more expensive due to higher capacity, durability, and advanced control systems, with costs potentially reaching \$5,000 to \$12,000 for custom or heavy-duty enclosures.

Installation Labor Costs

Professional installation is essential for code compliance, proper grounding, and safety. Labor costs vary by region and electrician experience:

- Average hourly rate: \$40–\$100 per hour
- Master electrician: \$100–\$150 per hour
- Typical residential panel installation: \$1,305–\$1,581 per panel for mid-range work
