

Jordan provides technical support for 24-core anti-tracking optical fiber cable

Article Overview

Jordan offers technical support and manufacturing expertise for 24-core anti-tracking ADSS fiber optic cables through specialized companies like TechLine.

Local Providers and Technical Support

TechLine, established in 2016 in the Al Qastal Industrial Area of Amman, is a leading Jordanian manufacturer of fiber optic cables, including indoor and outdoor solutions, copper networks, and data center infrastructure . The company is ISO 9001 certified and emphasizes technician-friendly serviceability, quality-first manufacturing, and practical engineering, making it a reliable source for technical support on complex fiber optic installations . TechLine provides guidance on installation, maintenance, and network design, ensuring compliance with international standards.

24-Core Anti-Tracking ADSS Cable Features

The 24-core ADSS (All Dielectric Self-Supporting) fiber optic cable is designed for overhead installations without requiring metallic components or external power . Key features include:

- **Anti-Tracking (AT) Sheath:** Provides resistance to electrical tracking, making it suitable for high-voltage environments.
- **Loose Tube Stranded Structure:** Filled with water-blocking gel to protect fibers from moisture.
- **Aramid Yarn Reinforcement:** Enhances tensile strength for long-span aerial installations.
