

Mexican construction site electrical distribution box factory

Overview

In 2024, Phoenix Contact announced the construction of a new production site in Querétaro in central Mexico at the Hannover Messe. The first construction phase has now been officially opened. Power supplies will be manufactured on more than 12,500 m² in the future. But building a plant in a new country involves unfamiliar permits, codes and local realities. That means. The Strengthening and Expansion Plan for the National Electric System (2025-2030) foresees a total investment of approximately MXN 624. In Mexico, Sonepar has over 20 branches in 11 states, guaranteeing coverage right across the country. SEN planning is based on clear criteria for the installation of new power plants that guarantee a sufficient, efficient. To strategically expand Phoenix Contact's global production network, improve supply chains, and be even closer to its target markets, the company has expanded its production network on the American continent.
