

# New Infrastructure Smart Distribution Box

## Overview

The latest innovation in home and commercial infrastructure is the Smart Panel Box (also known as an Intelligent Breaker Box). In this post, we'll explore how this advanced technology moves beyond the simple "fuse box" to provide total control over your energy environment. This growth is accompanied by significant technological advancements that make distribution boxes smarter, safer, and more efficient than ever before. We help our customers, partners and equipment manufacturers to improve energy efficiency, asset reliability, productivity, safety and performance. The Vertiv PDB solution was launched at OCP Summit in San Jose, California HARTING and Vertiv have teamed up to introduce a new rack power solution designed to. In the era of rapid development of electrical equipment, smart electrical distribution boxes are quietly transforming our understanding of electrical management with their advanced technologies and convenient features. Smart power distribution is Siemens' holistic offering for intelligent, digitally supported power distribution that ensures maximum resilience, efficiency.
