

# New Zealand optical cable pre-stretching process manufacturer

## Article Overview

OplinX, Prysmian, Maser Cable, and Optistar are key suppliers of pre-stretched and specialized optical fibre cables in New Zealand.

### Key Manufacturers and Suppliers

OplinX New Zealand Limited specializes in high-quality fibre optic cabling products, including pre-terminated and pre-stretched fibre optic cables. They partner with leading electrical wholesale suppliers and provide a range of ITU G.651, G.652d, G.657a/b, and composite fibre products, along with test and measurement equipment for telecommunication projects in New Zealand . Prysmian Group offers a wide selection of single-mode, multi-mode, and specialty optical cables, including loose tube and FlexTube® designs. Their cables are suitable for underground, aerial, and harsh environmental installations, providing high fibre density, tensile strength, and moisture protection. Prysmian's pre-stretched and composite designs are optimized for efficient installation and long-term durability . Maser Cable acts as a distributor and exclusive agent for Emtelle, a global manufacturer of pre-connectorised and blown fibre cabling solutions. They provide end-to-end fibre solutions for FTTx, data centres, telecoms, and enterprise applications, including pre-stretched and pre-terminated fibre assemblies, enclosures, and patch leads . Optistar has over 10 years of experience supplying fibre optic cables and infrastructure across New Zealand and the Pacific. They offer customized solutions for aerial, underground, and air-blown fibre installations, including pre-stretched cables designed to withstand UV exposure, high salt, and wind conditions. Optistar also provides hardware, accessories, and installation support for complex projects .
