

Price of Distribution Boxes and Power Supply Boxes

Article Overview

Distribution boxes typically range from \$50 to over \$1,000 depending on type, capacity, and features, while power supply boxes for construction or industrial use can cost several hundred dollars or more.

Distribution Boxes

Residential Distribution Boxes: Standard single-phase residential units generally cost between \$50 and \$300, depending on the number of circuits, material, and brand. Basic fuse boxes or small circuit breaker panels are on the lower end, while modern circuit breaker panels with surge protection or smart monitoring features are more expensive . **Commercial and Industrial Distribution Boxes:** These are designed for higher capacity and durability. Prices can range from \$500 to over \$1,000, influenced by factors such as three-phase configurations, number of circuits, weather-resistant enclosures for outdoor use, and integration with building management systems . Customization options, such as specialized mounting or digital monitoring, can further increase costs. **Factors Affecting Price:**

- **Type:** Main breaker panels, sub-panels, fuse boxes, or transfer switches.
- **Capacity:** Number of circuits and amperage rating.
- **Features:** Surge protection, smart monitoring, remote control, or energy efficiency.
- **Material and Durability:** Indoor vs. outdoor-rated enclosures.
