

Price of Grenada Multimode Optical Attenuator

Article Overview

The price of a Grenada Multimode Optical Attenuator is not publicly listed and typically requires a direct quote from suppliers.

Multimode optical attenuators, including those from Grenada, are used to reduce optical signal power in fiber networks and can be either fixed or variable. Prices vary depending on specifications such as attenuation range, connector type (FC, SC, ST, SMA), and precision. For example, variable multimode attenuators from manufacturers like Thorlabs or DiCon Fiberoptics generally range from \$50 to \$300 per unit, depending on features and quality . To obtain the exact price for a Grenada Multimode Optical Attenuator, you should:

- Contact authorized distributors or manufacturers directly, such as KTI Networks or Firecomms, which handle Grenada products .
- Request a quote specifying the required attenuation level, connector type, and fiber core size.
- Check B2B marketplaces like Europages or DigiKey for availability and potential pricing . Additionally, consider shipping costs and bulk order discounts if purchasing multiple units. For laboratory or OEM applications, suppliers may also offer customized attenuators, which can affect the final price. In summary, while a general price range for multimode optical attenuators exists, the exact cost of a Grenada model must be obtained directly from suppliers.

Article Content

Optical Attenuators: N7768C | Keysight

The N7768C is a four-channel power-monitored optical attenuator for multimode fiber applications. Its bulk-optic filter and collimated

Optical Attenuators (Fixed & Variable, 850, 1310 & 1550nm)

Precise and reliable fixed and variable fiber optic attenuators for optical power control. SC, ST, LC, FC, SMA connector types and In

Fiber Optic Attenuators

Our SM fixed optical attenuators are fiber connectors that can be attached to an FC/PC or FC/APC SM fiber patch cable. We also

Variable Optical Attenuators (VOA)

This type of fiber optic attenuator is ideal for multimode fiber applications because the neutral density filter attenuates all modes

Attenuators

VIAVI offers the industry's most complete range of optical attenuators for installation and maintenance of singlemode and multimode

Optical Attenuators, Fixed & Variable Available

FS fixed and variable fiber optic attenuators with leading attenuating fibers guarantee consistent and stable fiber attenuation

81578A Variable Optical Attenuator Module for Multimode Fiber ...

The Keysight 81578A variable optical attenuator is designed for multimode fiber applications and features lowest insertion loss and

Single Mode and Multimode Fixed Fiber Optic Attenuators

Fixed single mode and multimode fiber optic attenuators with high-performance doped fiber. 1db to 20db with LC, SC, FC, ST, or

Amazon : Fiber Optic Attenuators

Online shopping for Industrial & Scientific from a great selection of Fiber Optic Attenuators, Radio Frequency Attenuators & more at

Fixed Fiber Optic Attenuators, Multimode

Thorlabs' Multimode Fixed Fiber Optic Attenuators allow one to attenuate an optical signal easily by plugging multimode fibers or

Single-Mode and Multimode Fiber Optic Attenuators

Fiber optic attenuators for reducing power of optical signals for fiber optic communication systems in LC, FC, ST, SC connections.

Variable attenuators

Single-mode and Multimode Variable Attenuator (VOA) can precisely add attenuation to four, eight or sixteen different optical paths;

Fiber Optical Variable Attenuators

We offer the industry's most extensive selection of fiber variable optical attenuators (VOAs), addressing all application scenarios with

Fiber Optic Attenuators | Optoelectronics | DigiKey

Shop DigiKey's large in-stock selection of Fiber Optic Attenuators. View inventory, pricing and order now for same day shipping!

SmartClass OLA-54/-55/-55M Optical Level Attenuators

The SmartClass OLA-54/-55/-55M Optical Level Attenuators are future-proof, improved variable attenuators for fiber system testing

Fibre Attenuators ST FC SC LC | Optical Attenuator

Buy from MCL Data Solutions' range of high quality optical fibre attenuators, with singlemode and multimode options; build-out and

MPS-2550 Multimode Variable Optical Attenuator

The MPS-2550 Multimode Variable Optical Attenuator (VOA) is an adjustable Air-Gap style attenuator that is used in conjunction with

Fixed Optical Attenuators

Description Also purchased FOA is a plug-type single mode attenuator (multimode fiber attenuators also available). It is used directly

MPS-2150 Multimode Inline Optical Attenuator

MPS-2150 Multimode Inline Optical Attenuator The MPS-2150 Multimode In-line Optical Attenuator is a "fixed value" attenuator that is

Multi& single Mode Optical Attenuator-MEMS-DIMENSION

The new generation of multi-mode programmable optical attenuator integrates years of technological iterations and innovations, and
