

Rwanda ladder bridge

Overview

Built in May 2024 through a collaboration between Dar, its sister Sidara companies TYLin and Introba, and Bridges to Prosperity (B2P), this 100-meter hybrid suspension bridge spans across the Muregeya River in the municipality of Karongi. In Rwanda, where the Muregeya River cuts through the landscape, a new symbol of hope and connection now stands tall: the Muregeya Trail Bridge. This hybrid suspension bridge connects more than 2,500 residents across five communities, giving them safe and reliable access to essential services, markets. In 2024 in Rwanda, a team of SYSTRA employees built a solidarity bridge for the NGO Bridges to Prosperity. Thanks to generous support and engagement from HOCHTIEF, together with the local communities we were able to complete the construction of a 118 meters-long trail bridge, inaugurated in November of. In November, thirty of our Transport and Infrastructure experts traveled to Rwanda with Fika, a U.
