

Swedish U-shaped steel cable tray manufacturer

Article Overview

Wibe Group and Nordic Wire Tray are leading Swedish manufacturers of steel cable trays, including U-shaped designs.

Wibe Group

Wibe Group is a prominent Swedish manufacturer specializing in cable ladders, cable trays, mesh trays, and wall trunking. Their products are recognized for optimal strength and durability, suitable for commercial buildings, industrial environments, and infrastructure projects. Wibe offers a complete cable management system, including U-shaped steel trays, designed for ease of installation and robust performance. Their brands include Wibe, Defem, Stago, and Mita, providing a wide range of solutions for both horizontal and vertical installations.

Nordic Wire Tray (NWT)

Nordic Wire Tray, formerly X-Tray, provides one of the broadest selections of cable ladders in Sweden, including U-shaped steel trays. Their systems are cost-effective, easy to install, and adaptable to unique project requirements. NWT emphasizes high-quality materials and precision engineering, allowing trays to be bent, cut, and customized on-site. Installation requires minimal tools, typically an M8 bolt, a bolt cutter, and a 13mm wrench, which simplifies assembly and reduces labor time.

Additional Considerations

- Both manufacturers offer durable steel trays suitable for demanding industrial and commercial environments.
