

Temporary overpass

Overview

A new modular mobile flyover bridge allows vehicles to drive right overtop of stretches of highway roadwork, instead of waiting to go around them. Known as the ASTRA Bridge, it's intended to make life easier for motorists and safer for roadway workers. Ideal for use as temporary access over excavations, uneven terrain, and as an emergency replacement for permanent structures. Can be installed in. TerraCross is an engineered, easy-to-deploy clear-span temporary, portable, and modular bridge system for crossing waterways, ditches, underground utilities, and other obstacles. The lightweight portable bridge design allows for lifting and construction with a mid-size excavator or similar. Mustang Extreme's engineer-rated, prefabricated temporary bridges are designed to safely support heavy-duty vehicles and equipment over stream beds, waterways, and channel crossings, helping you quickly reach hard-to-access job sites in just a few hours.
