

Waterproof the entire distribution box

Overview

A robust waterproof distribution box shields sensitive components from moisture, dust, and mechanical impacts. This guide primarily analyzes structural engineering characteristics, technical specifications, and actual installation procedures to achieve optimal field performance. Typically constructed from durable, corrosion-resistant materials, these boxes are designed to withstand exposure to moisture and harsh environmental. Our circuit breaker protective box shell is IP65 engineering-grade waterproof with preventing snow and rain function, provide safety protection for your circuit equipment This distribution box is Made of high quality plastic material, durable and sturdy. Built with durable materials, CE & ROHS certified. It ships with a DIN rail for MCB/RCD/RCBO, supports neutral/earth bars, and provides knock-out entries that fit cable glands to maintain IP65 sealing.
