

West African Railway Cable Tray Prices

Article Overview

Cable tray prices in West Africa typically range from ₦9,000 to ₦14,000 per unit locally, or \$2 to \$25 per meter depending on material, size, and finish.

Local Market Prices

In Nigeria, for example, standard cable trays are listed at ₦9,000 for basic models and ₦14,000 for a 100mm x 50mm tray . Larger or galvanized trays, such as a 300mm x 50mm 2.5-meter unit, are available from local suppliers, often with higher prices due to material and durability . Prices vary by supplier, size, and whether the tray is pre-galvanized, powder-coated, or stainless steel.

Price Per Meter

On a broader scale, the average cable tray price per meter ranges from \$2 to \$25, influenced by material type, tray design, and surface finish . Key factors include:

- **Material:** Galvanized steel is common and cost-effective; stainless steel and aluminum are more expensive. Plastic trays are cheaper but less durable.
- **Coating:** Hot-dip galvanized (HDG) and powder-coated trays increase durability and cost.
- **Tray Type:** Ladder trays are pricier than perforated or wire mesh trays.
- **Local Factors:** Import dependency, currency exchange rates, and shipping costs can significantly affect prices in West Africa .

Cost Drivers

The main determinants of cable tray costs in the region include:
