

Western European Network Electronic Patch Panel Brands

Article Overview

Leading electronic patch panel brands in Western Europe include Schneider Electric, Siemon, Legrand, Intellinet, and FS.com, offering copper, fiber, and keystone patch panels for structured network cabling.

Key Brands and Suppliers

1. Schneider Electric A major player in Europe, Schneider Electric provides high-quality electronic patch panels for enterprise and data center networks, focusing on modular, scalable solutions that integrate with intelligent infrastructure management systems .
2. Siemon Siemon specializes in structured cabling and offers copper and fiber patch panels designed for high-speed networks, supporting Gigabit and 10 Gigabit Ethernet applications .
3. Legrand Legrand provides a wide range of patch panels, including fiber optic and copper options, with emphasis on reliability, ease of installation, and compatibility with European network standards .
4. Intellinet Europe Intellinet offers Cat5e, Cat6, and Cat6a patch panels with 8 to 48 ports, available in shielded (FTP) and unshielded (UTP) models. Their products support rack-mounted and wall-mounted installations, with features like angled cable entries and clear port labeling for organized network management .
5. FS.com Europe FS.com supplies Ethernet patch panels, including Cat5e, Cat6, and blank keystone panels, suitable for offices, data centers, and professional IT environments. They provide both 24-port and 48-port configurations .
