

What are some manufacturers of invisible optical cables

Article Overview

Key manufacturers of invisible optical cables include TE Connectivity, OPTOMER, OPTOKON, Corning, OFS, FiberHome, LongXing, and Hongan Group.

Invisible optical cables, also known as clear or transparent fiber optic cables, are designed to blend seamlessly into their surroundings while maintaining high-speed data transmission and reliability. They are widely used in residential, commercial, and specialized applications such as smart homes, MDUs, office spaces, CCTV, and medical imaging systems .

Notable Manufacturers

- TE Connectivity: Offers a range of invisible fiber solutions with high performance and aesthetic integration for both indoor and outdoor applications .
- OPTOMER: Specializes in optical fiber and cable solutions, including discreet, bend-insensitive designs suitable for complex installations .
- OPTOKON: Provides invisible fiber optic cables for telecommunications, data centers, and smart building applications .
- Corning Incorporated: A global leader in optical fiber technology, producing high-quality invisible and clear fiber cables for data and communication networks .
- OFS: Manufactures advanced fiber optic solutions, including transparent and low-visibility cables for residential and commercial use .
- FiberHome Telecommunication Technologies: Offers invisible fiber solutions for high-density and aesthetically sensitive environments .
